September 1, 2016

Texas Community Development Block Grant Program

Re: 2016 Revisions to the Texas CDBG Project Implementation Manual

Dear Stakeholders –

On behalf of the Texas Department of Agriculture (TDA), thank you for your input and comments regarding the draft of the 2016 Texas CDBG Project Implementation Manual (hereinafter “2016 TxCDBG Implementation Manual”).

The final version of the 2016 TxCDBG Manual is now posted on TDA’s website on the Community Development Block Grant (TxCDBG) Program for Rural Texas webpage. Changes promulgated on June 17, 2016 are still highlighted in blue; any subsequent edits are highlighted in green.

Included in the final issuance of the 2016 TxCDBG Manual is Appendices D-F. In light of TDA’s recent recommendation that Administration and Engineering/Architect/Surveying professionals who might assist with the TxCDBG applications be procured before the funding of awards to prevent any conflict of interest, Step by Steps and additional samples for both Administration(Appendix D) and Engineering/Architecture/Surveying (Appendix E) have been prepared. In addition, conforming changes were made to each sample packet. Finally, required contract provisions (retention of records, access to records, and termination for convenience) were added to Sample Contracts as needed.

Because Appendices D-F are just being released, you may provide commentary regarding these amended sample documents as well as any other proposed changes made since June 17, 2016. Please send your comments to Vada Dillawn at [vada.dillawn@texasagriculture.gov](mailto:vada.dillawn@texasagriculture.gov) by September 15, 2016.

In addition, please note the following:

1. Permanent Signage – Chapter 4 – The rules regarding Permanent Signage have been amended. Permanent Signage is now required for public buildings, park areas, or other structures open to the public, in addition to commercial facilities funded through the TCF Real Estate program. Permanent signage is no longer required for all infrastructure improvements located above ground and enclosed by a fence.
2. Procurement of Administration and Engineering/Architecture/Surveying– Chapter 5, Competitive Proposals, 5.2 – The differences between procuring for administration

services and other professional services as opposed to engineering, architecture, and surveying services have been delineated and clarified.

3. Additional Edits to 2016 TxCDBG Project Implementation Manual

In addition, since the publication of the proposed 2016 TxCDBG Implementation Manual on June 17, 2016, a few minor edits have been made to correct typos, clarify policy, and/or address raised issues. These changes, including the policy changes above, are summarized in the attached chart.

As of today, September 1, 2016, these new rules will apply to all current contracts.

Again, thank you for your input and for all that you do for rural Texas.

Sincerely,

A handwritten signature in black ink, appearing to read "Suzanne Barnard". The signature is fluid and cursive, with the first name "Suzanne" written in a larger, more prominent script than the last name "Barnard".
